

CX Internal Flush Plate Piezo Siren (PDL Style)

Model: **CX-ISM03**

108±5dB SPL

OVERVIEW

The CX-ISM03 is an internal flush plate piezo siren designed to match PDL-style switch plates for a seamless, integrated look within residential and commercial alarm installations. Delivering a strong 108dB output with a clear single-tone sound pattern, it provides a clear, attention-grabbing alert while its flush plate design blends neatly into standard wall fittings.

KEY FEATURES

- 108dB loud piezo output
- Single Tone sound output
- PDL-style flush plate design
- Wide DC9–15V voltage range
- Durable, long-life piezo element
